CCS ACCOMMODATIONS

The following is not a comprehensive list of possible accommodations. Please contact Student Services with questions regarding accommodations not listed on this document:
studentservices@crossroadschristianvictoria.com | Office: 361-212-3078

Time
The Silver Program: Time modifications are typically unnecessary with online learning at CCS because we do not have hard "due dates". Students can work at his/her own pace within a specified time frame set by CCS.
The Gold Program: Time modifications are typically unnecessary with online learning at CCS because we do not have hard "due dates". A student can work at his/her own pace within a specified time frame set by CCS and/or the School Districts – up to 20 weeks.

Fewer Multiple-Choice Options on Quizzes/Exams
In the Silver Program: Our system can adjust the total number of exam questions, not the number of choices per question, given to a student based on the IEP/504 recommendations.
In the Gold Program: Our system can adjust the number of choices given to a student based on the IEP/504 recommendations (down to 2 choices)

Timed Exams
Our exams are not timed but must be taken in one sitting – there is no save and continue.

Print Exams
Teachers can provide print copies of exams to students.

Use of Notes
If written on the accommodation document, CCS teachers will allow use of notes on exams – quizzes are not password protected and therefore all students are encouraged to use notes/refer to the reading on each quiz.

Study Guides
If requested, a teacher can provide study guides for exams if not already embedded in the course.

Text To Speech
Some courses have embedded text-to-speech. If there is no embedded tool the school district and/or student uses their own software. For example, Google offers a free extension called *speakit*.

Use of Calculator
If written in the accommodations document, teachers will allow the use of a calculator.

Fewer Exam Questions
The Silver Program: Fewer exam questions can be adjusted on-line.
The Gold Program: Teachers will print off exams so they can cross off the questions the student does not need to answer. The points will be adjusted to account for fewer questions and the score input into the lms will reflect the % on the print exam. Ex: student earned 18/20 on the print exam (90%) the lms will show a score of 22.2/25 (to reflect same 90%)

Audio Books
The Silver Program: Included is a text-to-speech option for all available courses.
The Gold Program: Students who struggle with reading may use audio books if they are available. These would need to be obtained online, through a nook/kindle/apple service, or from their local library.

Retries of Non-Password Protected Assignments
Teachers may allow students to retry an assignment if the student did poorly or if he/she is missing a component.

Re-Grading of Missed Exam Questions For Partial Credit
This can be done but may require the student to take the exams in print form as the online exams may automatically provide correct answers.
